

## Hostaperm Blue B2G 03

### Pigment Blue 15:3

Pigments of the Hostaperm range are organic, high-performance pigments mainly used in Coatings applications. Hostaperm Blue B2G 03 is a green shade blue pigment which can be dispersed by high-speed dissolver into many solvent-based paint systems. When used in water-based paint systems, a bead mill or similar device must be used.

## Benefits

- no halogen-based substances added
- easy to disperse in solvent-based paint systems

## Product Data

### Application Profile

- Industrial Coatings
- Decorative Paints

### Special Recommendations

Air-drying Alkyds
